

What are LUMINEERS®?

LUMINEERS are the painless way to bring out the beautiful, healthy, natural, permanently white smile in you.

Ultra-thin LUMINEERS are custom-designed to give you the beautiful smile you've always dreamed of. Unlike traditional veneers, there are no shots, no drilling of sensitive tooth structure and no pain. They're even reversible, so you have nothing to lose and a beautiful smile to gain. Plus, LUMINEERS are proven to last for over 20 years, so your beautiful smile will be with you for years and years.

LUMINEERS in LUMITray™

And now, in addition to LUMINEERS, ask us about LUMINEERS in LUMITray. It's new technology that allows us to place your veneers all at once, instead of individually, getting you out of the dentist chair faster so you can start showing off your incredible new smile sooner.

Transforming your smile couldn't be any easier; in fact, it takes just 2 easy visits.

Whether you transform your smile with LUMINEERS or LUMINEERS in LUMITray, it takes only 2 easy visits for us to bring out your beautiful smile. During your first visit a precision mold will be taken. We will also choose the right shade for your new, permanently white smile. On your second visit, your custom-designed LUMINEERS are checked for fit and shade. Then, they're painlessly placed to bring out your straight, white, attractive smile!

That's it—a healthy, natural, permanently white smile you've always wanted in only 2 visits.

LUMINEERS®

beautiful smile. beautiful you.
